ELECTRICAL SAFETY COMPANY.

THE CARTWRIGHT PROTECTOR

Is simple in construction and unfailing in action, and gives perfect protection to all Electrical instruments against any fire which can be caused by the crossing of wires carrying a weak current by those carrying a more powerful one. So long as the current passing through the instrument protected is normal, the armatures of the Protector remain quiescent, but upon the passage of an abnormal current the armatures are attracted by the core of the magnet and the current is carried to ground, thus cutting out the telephone or other instrument which would have been destroyed, and probably the building set on fire, had not the abnormal current been so diverted. So soon as the abnormal current has been carried off, the armatures are released from the core automatically, and the Protector is ready for another abnormal current.

At the recent test made by the Boston Fire Underwriters' Union, the CARTWRIGHT PROTECTOR fulfilled perfectly all the requirements, and was the only instrument which did, no other being considered so well adapted for use on fire alarms and metallic circuits. As a result of the test, the CARTWRIGHT PROTECTOR was approved of and accepted by the Board.

By discharging through the core of the magnet, the Cartwright instrument is enabled to carry off a large volume of current, which renders it far superior to those depending on contact stops, and it is the only one which can do so, as this right is exclusively secured to this Company by Letters Patent.

BOSTON BOARD OF FIRE UNDERWRITERS, 55 Kilby St., Room 63.

ELECTRICAL SAFETY COMPANY, BOSTON, April 21, 1890.

H. E. TOWNSEND, Esq., *Treas.*,

Dear Sir: In reply to your favor of this date, permit me to say that the Cartwright Electrical Protector submitted by your company at the recent test of Electrical Safety Devices made by the Boston Fire Underwriters' Union is reported to us as having met in a satisfactory manner all the conditions of the test, and the use of the said Protector will be approved by our Inspectors. I am yours truly,

(Signed) OSBORNE HOWES, JR., Secretary.

CAPT. WILLIAM BROPHY, of the New England Insurance Exchange, was present at the tests and joined in the endorsement of the Cartwright Protector.

A complete demonstration of the inventions in practical operation can be seen at our place of business, where we shall be pleased to see all who are interested.
